For over 40 years, WSI distributes only the best branded IT hardware and software products in the Philippines. A consistent Top 500 company, WSI's diverse product line meets the ever-changing business requirements of Philippine companies across all industries.

WSI is the No. 1 software distributor and one of the leading hardware distributors in the country today.

The company is known for its excellent technical support group, aggressive sales and marketing team, and a professional and experienced management team.

WSI holds its headquarters at the WSI Corporate Center in Makati City, and maintains its presence in the Visayas and Mindanao regions through its Cebu and Davao branches.

VISION

To be the best Distributor of IT products in the Philippines.

MISSION

We shall achieve this by developing and working closely with the proper channels through effective marketing and proficient support thus enabling its partners and the company to grow together.

FACTORS FOR SUCCESS

WSI merits its continued success to its strong partnerships with world-class technology brands and top resellers that bring WSI's product lines to the end users.

WSI works closely with its partners to implement innovative marketing and sales programs to increase its extensive corporate and varied market presence.

Ease of doing business with WSI has resulted in lasting and fruitful relationships with its suppliers, resellers and end-users. Proof of this is its 40-year relationship with Star Micronics, the very first printer product WSI exclusively carried when it started in 1982.

The company's sound fiscal policies have made WSI one of the best-managed and financially stable companies in the industry. Another factor to its continued success is its distribution model -- where sales are always coursed through the company's channels because it believes it should not compete with its clients but work hand in hand to achieve mutual business growth.
